FOREWORD

Coming to the close
of four of the most important years
of our lives,
we, the members of the Class of 1967,
in the midst of
our preparations for the future,
must turn
to the discoveries of the past
to guide us on to new achievements.
Our entrance into
Sharon High School as freshmen
was accompanied by
the confusion and bewilderment
of two hundered-eleven individuals.
With the passing of the years, however,
we came to realize
the importance of
friendship and co-operation
as we united in an effort
to live up to the fine traditions
which had been left to us
by previous classes,
and, through our Junior Prom, "Stardust,"
the first ever to leave Sharon High,
to create a tradition of our own
for up-coming classes.
Too, we have come to understand
and respect knowledge for its own sake,
for we have found
that, far from completing an education,
we have merely begun the search for truth
which will continue
for the rest of our lives.
This we have discovered
from our years at Sharon High School,
and this we must use
as a basis for future achievements.

In Appreciation

When we first entered Sharon High in September nineteen sixty-three, we came as two hundred eleven individuals rather than a unified class. Our transformation into a single working unit could not have been achieved without the aid and guidance of our class advisors, Mrs. Eames and Mr. Davenport.

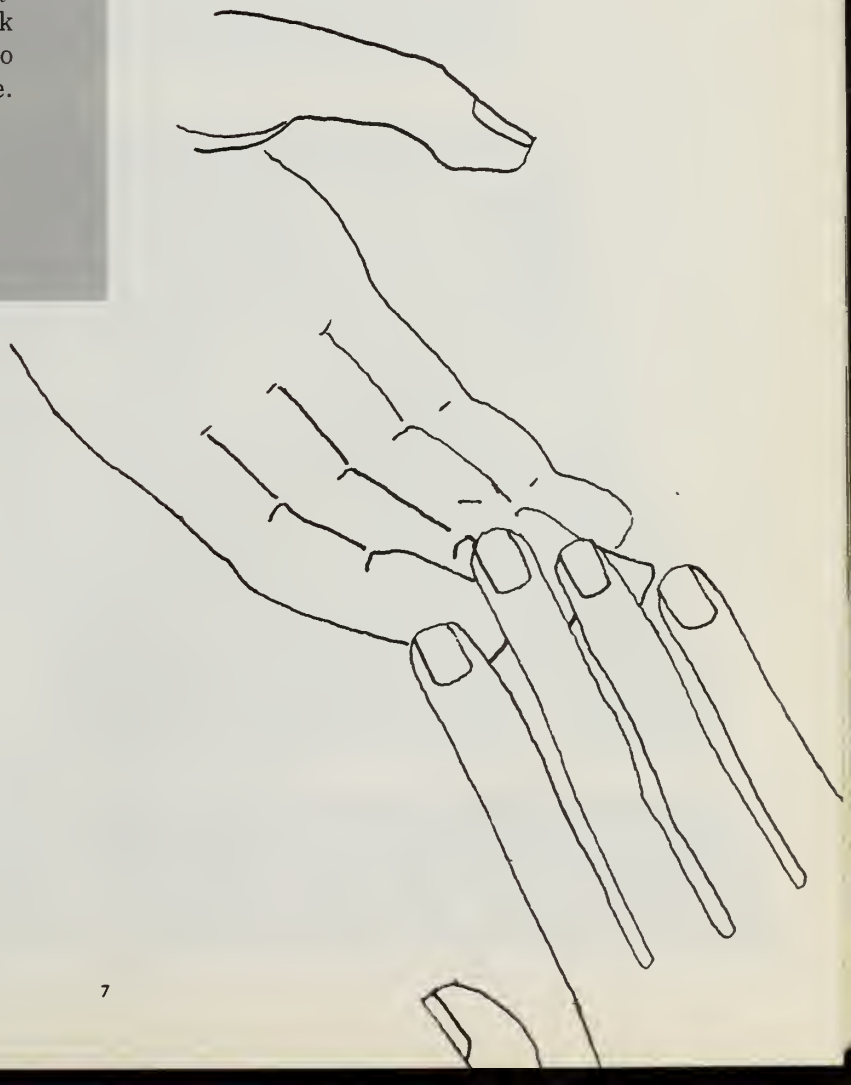
Mrs. Miriam Eames

Mr. Dudley Davenport

Throughout the past four years, in spite of the many frustrations involved, they have given countless hours in helping to make our class functions the successes they have been. In addition, their advice and ideas have aided us in solving the many problems which confronted the class. Now at this time of graduation we wish to express our appreciation to you, Mrs. Eames and Mr. Davenport, for helping us achieve the maturity and wisdom needed to take on the responsibilities of tomorrow.

Dedication

As we prepare to leave the life we have known for so long, we pause and reflect upon all those who have guided us through the twelve most important years of our lives. We realize that there is not one person who has been solely instrumental in our learning. Rather, there have been many —teachers and counselors and administrators—who through their combined and continuous efforts have contributed to our education. Mindful of this, we, the members of the Class of 1967, dedicate our yearbook to the members of the Sharon School System, to each and every teacher who has helped us on our "discovery" road. May we take this opportunity to thank them for having molded us into the mature adults we hope we are.



FACULTY

Interpreting . . .

our intellectual needs and stimulating us to explore various fields of knowledge and sharing our ideas and experiences, the teachers of Sharon High have guided us with warm enthusiasm through the past four years. Their dedication and inspiration have given us the desire to learn and to discover on our own the many opportunities that await us when we reach the world outside. This relationship between students and faculty is manifested in the high quality of the graduating classes.

Administration And

Mr. Dowd

Under the administration of Mr. Danielson, Mr. Dowd, and Mr. Blanchon, Sharon High has achieved an outstanding reputation as a place where each individual is offered the best education and a wide variety of extra curricular activities to prepare him as a well-rounded individual in today's society. Without their unfailing concern and understanding of the needs of the students, as well as their co-ordination of programs adapted to these needs, the functioning capacity of the school would be void.

Mr. Danielson

Mr. Blanchon

Guidance . . .

Working in conjunction with the administration, the Guidance Department is concerned with each individual student as a person in himself. Any problem involving a program change, a college, or a career can be brought to the attention of our competent guidance directors, Mr. Barrows, Miss Haley, Mr. Konsavage, and Mr. Soule. Always ready to lend a helping hand in the direction of a student, the guidance counselors of Sharon High School have established for themselves a strong reputation of dedication and reliability.

Mr. John Barrows

Mr. William Konsavage

Miss Marion Haley

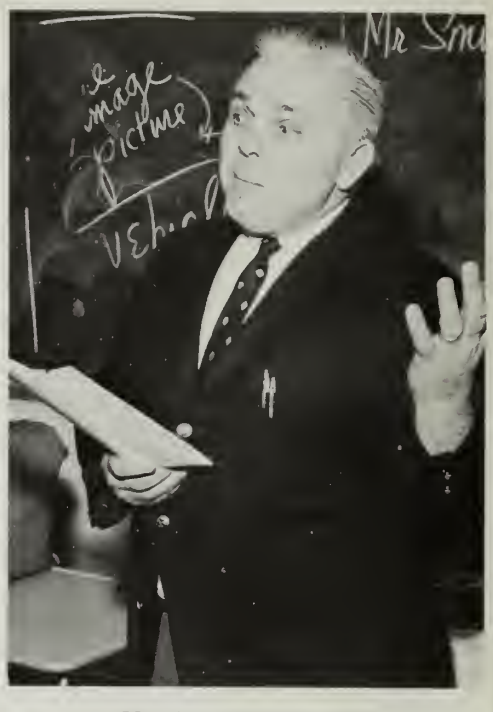
Concerned With The Individual

Mrs. Katherine Norwood
English
Advisor: Creative Writing Club
"I don't see any reason for the humor, boys."

ENGLISH

This year, the English Department has devised an ingenious innovation known as "The Stamp." Designed to eliminate time-wasting in the correction of themes, "The Stamp" taunts the minds of students who, in striving to get an A, dream of a returned paper on which there are no checks beside any of the requirements. With "Stamp" in hand, Sharon High's English teachers turn to the old stand-bys of **Julius Caesar, The Scarlet Letter, Silas Marner, Macbeth, Beowulf,** and **Hamlet** for composition topics which present their students with the challenge of developing original ideas into organized communication.



Mr. Carlyle Newton
English
Advisor: Dramatics Club Thespian Society
"Ladies and gentlemen, that was a euphemism."

Mrs. Ruth Hirshberg
English
Advisor: **Eagle**
"I thought it was an easy lesson."

Miss Helen Sanford

"I didn't stamp your paper?"

Miss Mary Reynolds
English and Mathematics
Advisor: **Marsengold**
"Ask Mr. Lane if I might borrow his stamp."

of Developing Original Ideas Into Organized Communication

Mr. Charles Lane

Mr. Joel Peckham

Mr. William Riley
English
Advisor: Debating
"That was quite a point you made."

Mrs. Emma Magro

"This year, boys and girls, the stamp is replacing the British Square."

Miss Judith Anderson
English
"Next time, do more than just scratch the surface."

The Future, A Speculation . . .

HISTORY AND SOCIAL STUDIES

The future is only a speculation; the present is an ever-changing period; the past, a stable, non-fluctuating fact. The History Department, offering a varied program, enables the student to investigate the far-reaching effects of those latter days. By studying the many aspects of history, he is able to explore the causes of the Civil War or the results of the Depression. Moreover, while participating in these studies, he is establishing a solid foundation of knowledge which will aid him in solving or analyzing future problems.

Mr. Franklin James
History
Advisor: National Honor Society
"I was only kidding....really!"

Miss Dorris Newton

"Standing on the corner, conjugating verbs."

FOREIGN LANGUAGES

The introduction of Spanish to the school's curriculum has expanded the Language Department to include two romance and one classical language. Resembling the three-year French program, instruction in Spanish begins in the sophomore year by developing the elements of basic grammar and composition. Enhanced by the facilities of the language lab, the French program continues to emphasize the vernacular as well as the literary aspects of the language. Three, and sometimes four, hard memorizing years separate that first innocent **bonjour** and the final experienced **au revoir.** Distinguished as the only classical language offered in the high school, Latin appears to the beginner as an unrelated text of rules and exceptions. In an effort to facilitate these rules, readings from Caesar, Cicero, and Virgil are presented in Latin II, III and IV.

Mr. Roger Chappuis
French and Advanced Humanities

Miss Dorothy Chase
Latin
Advisor: Jr. Red Cross, Jr. Classical League.

Any student may take from two to six or seven math courses, chosen from a wide and varied field. The usual sequence in Algebra I, Geometry, Algebra II, and then either Trigonometry or Senior Review Math; but, like most rules, there are many exceptions. Preparatory Math, Business Math, and even Calculus are available to those desiring to enter the mysterious realm of numbers.

Understanding The How and Why

SCIENCE

Through new discoveries and new applications of old discoveries, science today is of great importance in helping man to understand the how and why of life. Here at Sharon High, the Science Department gives students the incentive to join in this advancement of humanity. Through the efforts of the science teachers, students in Sharon can obtain a closer look into the causes and effects of the world which surrounds them. Through their expert guidance, perhaps Sharon High will bring forth another Robert Goddard or Walter Reed.

Mr. Marcus Marcussen

Building Business Skills

BUSINESS

For those who wish to enter the demanding world of business, Sharon High provides a strong foundation upon which to build a successful career. Subjects ranging from Applied Mathematics to Stenography are designed to offer the business-minded student a look into the numerous opportunities which await him if he has the proper training. The practicability and sound background of the Business Department are realized upon graduation with entrance into the working world.

Mr. Joseph Courteau
Business
"It'll keep."

Mrs. Ruth Rivkin
Business
"Are you sure it's plugged in?"

Household, Mechanical Skills Sharpened

Mr. Nelson Rebello
Mechanical Drawing
Coach: Soccer
"Are you sure you passed that in?"

Mr. Thomas Marsilli
Industrial Arts
"How much does it take to push a button?"

INDUSTRIAL ARTS

Both minds and hands are occupied in the Industrial Arts Department, where the skills of mechanical drawing, wood-working, and metal-working are taught. The fundamentals of drafting and the use of basic tools are practiced by the students, and the results of long hours of painstaking preparation and study can be seen in the bookcases, coffee tables, hi-fi's, and pulleys which are created here.

HOME ECONOMICS

In the Home Economics Department, the skills necessary for tomorrow's wives and homemakers are taught and practiced. Nutrition, meal-planning, child-care, grooming, and home furnishing are only some of the practical arts taught besides the usual subjects of dress-making and tailoring. Mrs. Eames, in striving to make her courses both interesting and fruitful, has succeeded in making Sharon High's Home Economics Department much more than a glorified sewing circle.

Mrs. Miriam Eames
Home Economics
Advisor: Class of 1967.
"Well, what does the recipe say to do next?"

Fine Arts Serve Varied Talents

Mrs. Carolyn Baughman
Music
Advisor: Girls' Chorus, Band, Mixed Chorus, Madrigal Group.
"Well, try it again...and this time, try to stay on key!"

LIBRARY

As a place for study, research, or browsing, the library is one of Sharon High's most vital centers. The dedication of Miss Clark and her assistants has helped to create a library which is both well-equipped and scholarly, yet which still provides a relaxing atmosphere for students and teachers alike. The worlds of history, literature, and science, to name only a few, are available to those who are willing to spend a study period in the pursuit of knowledge.

ART AND MUSIC

This year, the Art and Music Departments have been expanded in order to provide a rounder curriculum for interested students. Members of the art classes have arranged various exhibits which include record jacket designs and paper mosaics, as well as paintings, all of which are indicative of the outstanding talents of Sharon High.

The Music Department has added two choruses: the Madrigal Group and the Boys' Chorus. This year's Madrigal Group is composed of about one dozen girls who enjoy singing **a cappella** works, while the new Boys' Chorus sings light classical and popular pieces. These groups, along with the original Mixed and Girls' Choruses, have successfully sung for local clubs as well as for this and other high schools.

Mr. Frank Bryant
Art
Advisor: Art Club.
"A record album for the Midnight Who?"

Miss Marion Clark
Library
Advisor: Library Club.
"Let's quiet down, girls."

Physical Education Completes Curriculum

No school curriculum is complete without physical education. Through participation in sports as diversified as basketball, field hockey, soccer, baseball, volleyball, and gymnastics, athletic skills are developed as are the all-important qualities of sportsmanship and teamwork. In their "classrooms", Mr. Hall and Miss Decas promote such attitudes just as they encourage each student to become physically fit when they drill and coach the fundamentals of sports.

Mr. Hall takes over.

Miss Decas lends a helping hand.

"Don't let go!"

One class that's fun.

Non-Teaching Personnel

Mrs. Berger

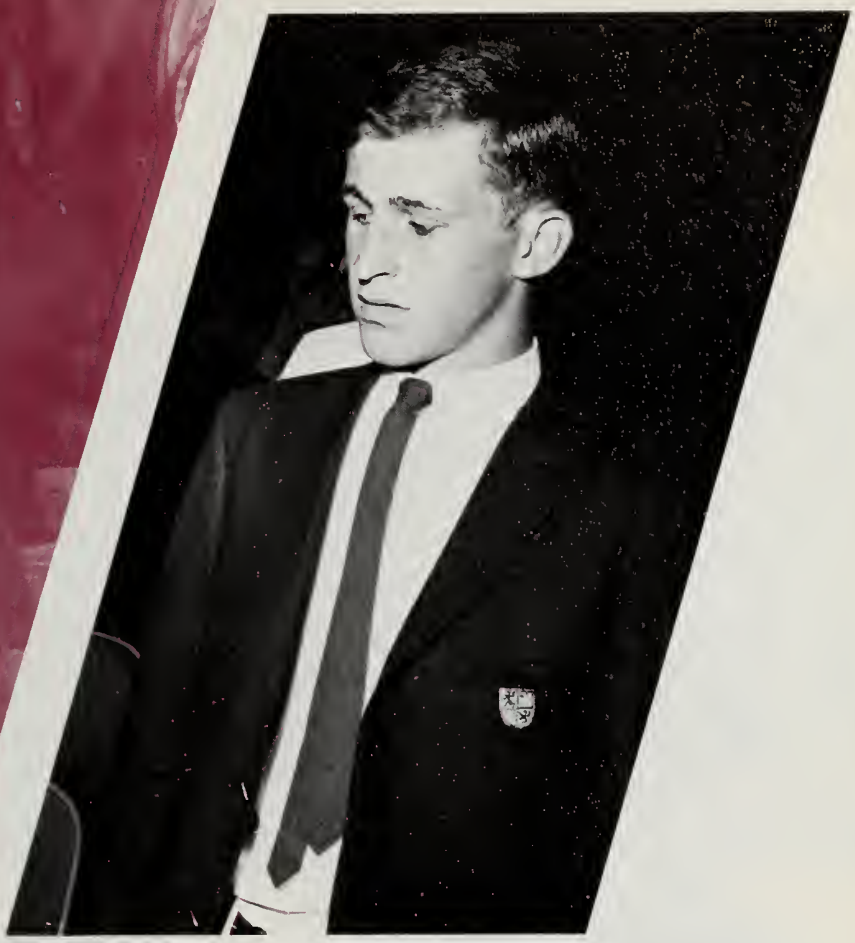
OFFICE STAFF
Mrs. Corey, Mrs. Leventhal, Mrs. Leedham

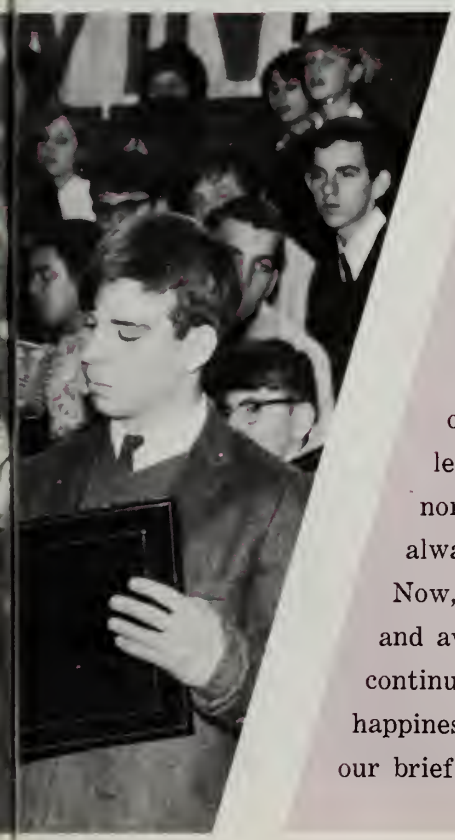
NON-TEACHING PERSONNEL

Sharon High is very fortunate to have a large group of specialized people who work solely to make the school function smoothly. The rarely praised office and cafeteria staff, custodians, and nurses are the behind-the-scene workers whose jobs are varied, yet vital. It is the maintenance of both the health of the students and the smooth operation of the building, along with the completion of necessary office duties which are the proofs of the competence of this non-teaching staff.

Mrs. Rich, School Nurse

SENIORS





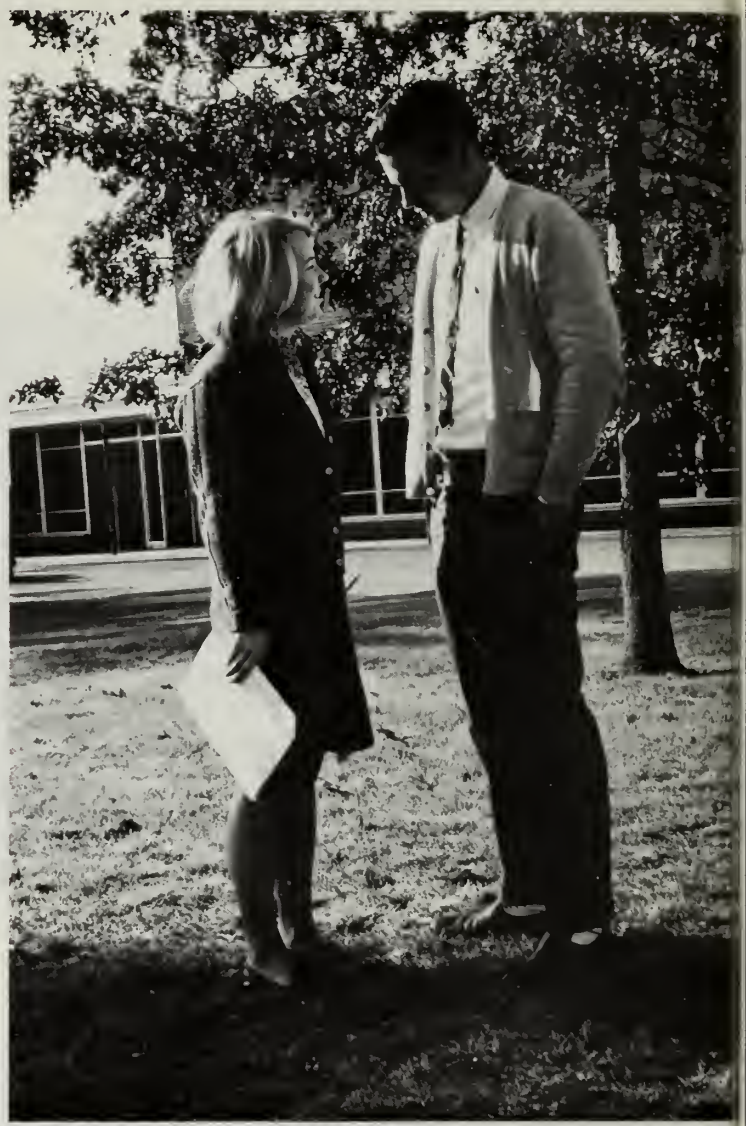
Realizing . . .

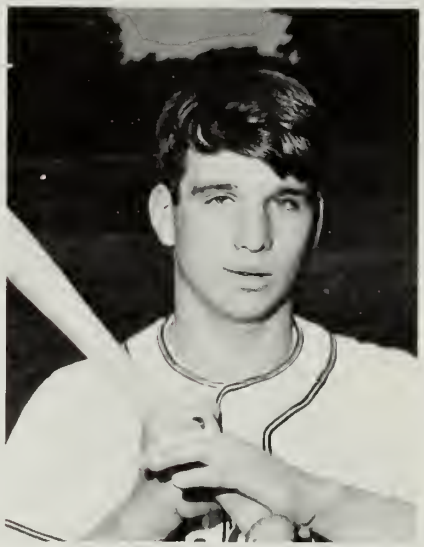
the importance of all we have gained from Sharon High — a strong education, a sense of responsibility and of loyalty — we, as seniors, now move on to new discoveries. We have learned that, no matter how long nor how much one studies, there is always room for more knowledge. Now, as we move into the strange and awesome world of adulthood, we continue our search for truth and happiness, as we have begun during our brief stay at Sharon High.

To be a senior is to be at a set of crossroads.

While dreaming of graduation, college, and careers,

we must still concentrate on the realistic preparations for our dance, play, and yearbook.





While joking over bus passes and senior pictures,

we must somehow find
time to discover
our future from the years
that have passed.

The Accounting of A School Year

The 1967 **Marsengold**, a volume containing accounts of years at Sharon High, is the culmination of a year's hard work by all the members of the staffs. It is not just a mass of pages but rather it represents long nights writing articles, endless days taking pictures, grueling hours balancing a tight budget, vacations spent typing and editing. And always there is a deadline to be met. But the frustrations and worn-down pencils as well as the fun and laughs have proved worthwhile and gratifying as we present a **Marsengold** of which we are extremely proud. It was compiled only through the guidance of our advisor, Miss Reynolds, and the leadership of our Editor-in-Chief, Gail Williams.

Stardust . . .

The Queen and her Court.

Jill and Chris — the Queen's dance

1966

The Grand March

Tradition was broken as the class moved the scene of the Junior Prom from the Sharon High gymnasium to the luxurious King Phillip Ballroom in Wrentham. With "Stardust" as the central theme and Friday the thirteenth of May as the magical date, we were well prepared for an evening of enchantment. Sharon High traditions were carried out with the crowning of the queen, Jill Kvaraceus, and her court and the customary Grand March. All that remains of this evening are the memories — BUT PRECIOUS MEMORIES WILL ALWAYS LINGER; MEMORIES OF TONIGHT: STARLIGHT, STARDUST, AND YOU.

Precious Memories Will Always Linger

"May I have this dance?"

Talented Cast Delights Audience

Ten seconds 'til curtain's up!

The anxiety of tryouts . . . the exhausting work of rehearsals . . . the trauma of dress rehearsal . . . the satisfaction derived from success . . . this was "George Washington Slept Here."

Through the efforts of Mr. Newton, a talented cast, and the numerous "behind-the-scenes" assistants, the vicissitudes of country life in Maryland unfolded on November 18, delighting an enthusiastic audience. With the final curtain, the Class of '67 realized the true meaning of a familiar word—Pride.

with "George Washington Slept Here"

ACTIVITY

Revealing . . .

the diversities in life, opening to the student new areas of pursuit, and paving the way for future development, extracurricular activities contribute greatly to the spirit of Sharon High. Elements of the curriculum have a dual function, as they not only lend themselves to further achievement on the part of the individual, but also, as a unit, they strengthen the completeness of the school itself. Beneficial to all who participate in their programs, these organizations, which are as important to the student's well-being as are his studies, teach him the value of co-operation and leadership.

STUDENT COUNCIL

As a representative of student government, the Student Council serves as a mediator between the student body and the administration. Any suggestions or grievances can be brought to the attention of the Council, and, if they are worthwhile, can result in action. Working on democratic principles, each class elects four representatives who, along with the Vice-President of each class, compose the Council. As a further service to the students, and in order to provide for scholarships, candy is sold at basketball games, and the traditional Twirp Twirl is sponsored. In addition, Good Citizenship Awards are awarded throughout the year to the deserving students for their outstanding participation and school spirit. As representatives, the members of the Student Council render services in the best interests of their classmates.

NATIONAL HONOR SOCIETY

One of the greatest honors a student can receive is to be "tapped" into the National Honor Society. Qualities of character, scholarship, leadership, and service are recognized in all those juniors and seniors chosen to be members. This year a new procedure of selection was initiated. Seniors were "tapped" at one assembly and the juniors at another in the spring in order to afford a more objective method of selection. Throughout the year, the Society cites those underclassmen who have shown any one of the four ideals which the organization represents by means of the presentation of appropriate awards. Meetings are devoted to discussions, to films of special interest, and to the planning of functions sponsored by the group, all of which incorporate the high ideals which exemplify the National Honor Society.

THE EAGLE

Although late in arriving, the **Eagle** finally got off the ground and provided the school with another year of local news features and sports. This year's staffs had to work especially hard in order to compensate for the initial delay, which necessitated the cancellation of a number of issues of the paper. While the Senior **Eagle** members were busy editing and publishing, the Junior **Eagle** and the Freshman staffs studied the basic skills of journalism in order to become acquainted with the mechanisms of high school publications.

Creativity in process

Creative Writing Club

For those students with creative instincts in the literary field, the Creative Writing Club provides an outlet for their talents. They can receive helpful advice and criticism, which will improve their style and form, from fellow writers and from the advisor, Mrs. Norwood. Much hard work writing poetry, short stories, and drama results in the annual publication of the **Quill,** which consists of a collection of the most outstanding original literary works written by both club members and members of the student body. If you are a prospective author, this is your opportunity.

R. Einis, S. Rogers, J. Leavitt, N. Schwartz, S. Forman, S. Kesselman.

Chess Club

This year's Chess Club is again under the able leadership of Mr. Downing. The club's continued success is due to excellent training, long hours of practice, and the inherent talent which the members possess. The knowledge of the basic skills and the ability to plot out strategies against opponents during actual games are only two of the many requirements for a successful chess player. Sharon High's team surely must possess these and other skills, for they definitely excel at their game.

Gifted Students Display Their

DRAMATIC CLUB

The Dramatics Club, in allowing gifted students to display their talents, introduces its members to the world of the theater and of the dramatic arts. The opportunity to act is only part of the widely varied program which includes instruction in make-up, production, and even play direction. The proof of the success of this club can partially be seen in the presentation of excellent assembly and Drama Festival plays, but only each member realizes the tremendous value which he has obtained from his membership.

THESPIAN SOCIETY

The Thespian Society is a national dramatic organization which honors outstanding high school students who have excelled in the dramatic arts. Membership in the society is limited to those students who have devoted 100 credit hours to production and have appeared on the stage in at least one major role. This year Troupe 1937, under the direction of Mr. Carlyle Newton, has been at the heart of the many fine productions at Sharon High.

Debating Skills Polished by Varsity

"What's he talking about?"

"Obviously, Korea can't support such an army."

"And do you have a reliable authority to back that?"

"Well, my partner . . . ."

Under the guidance of Mr. Foley, President of the South Shore Debate League, and Mr. Riley, each suave varsity debater or nervous novice learns to develop solid arguments and an individual presentation which are both complimentary to his partner and inoffensive to the average judge. Through both intramural and interscholastic debating, a member of the debating Club soon learns the advantages of effective communication.

Classical Music Appreciation Club

B. Tiffney, Mr. Chappuis, advisor, C. Fleming, S. Linsky, H. Zakon, S. Strasnick, V. VanDamme, B. Oven.

Every Tuesday afternoon snatches of symphonies filter out of room 208, where a meeting of the Classical Music Appreciation Club is taking place. This year the club has adopted a new format which includes a tracing of the development of classical music from the time of Purcell and Handel to Brahms and the Romantics. Each meeting is spent in the study of a different famous composer and here the comments of the advisor, Mr. Chappuis, are overshadowed only by the excellence of the works which are being played.

The Art Club

The Art Club affords Sharon High's budding artists an opportunity to follow their creative instincts. It offers its members more possibilities than can any individual class, for here they have a wider variety of materials. Because the students can provide their own mediums, it is not unusual for different members to be working with a variety of materials, such as pastels, oils, wood cuts, or ceramics. This year's group hopes to establish a tradition in Sharon High by sponsoring a project to begin a collection of original prints by well-known artists. Whether collecting or creating, the members of the Art Club have definitely made their organization a success.

Volunteer Hospital Work

As a member of the Red Cross Youth Council, a person may help those less fortunate than himself as well as contribute to the community; he may become involved in school drives which raise money for disaster areas or underprivileged people; he may contribute to the community by participating in one of the two bloodmobiles which come yearly to Sharon; or, if he has any creative ability, he may find himself making Christmas favors or decorated soaps for the patients of a nearby hospital. Finally, by means of interesting guest speakers and films, the individual will gain a better understanding of the workings of Red Cross and those areas which are related to it.

With this acquisition they can join the growing rank of Amateur Radio Operators in the United States.

Junior Classical League

Miss Chase's devotion to keeping the spirit of Classical Rome alive in Sharon High is largely responsible for the popularity of the Junior Classical League. Besides sponsoring the Roman Banquet and annual Slave Auction, the members of the League carry out the Roman spirit through games such as "mythical baseball" and songs such as "Home on the Range" (sung in Latin, of course). Both knowledge and enjoyment are gained by the League members who make it their business to spend an hour every other Friday in Room 201.

Boys who give their time and energy to serve the school—these are the members of the Boys' Varsity Club. Entrance into the club has to be earned, and the boys who qualify are rewarded not only with the familiar maroon and gold jacket but also with the knowledge that they are about to serve their school. GIRLS' VARSITY CLUB

An enthusiastic group of sports participators, the Girls' Varsity Club through its numerous activities promotes school spirit, sportsmanship, and service. As a prerequisite for membership, each member must have earned at least one varsity letter. As a member, each works for the school by selling both potato chips at games, and book covers before school and by holding an annual car wash. The proceeds of these projects are used to enrich the scholarship fund. Besides performing these services, the girls are the ones who make the spirited decorations for the pep rallies and who help out at intramurals. This year under the inspiration of President Nancy Lindberg, the girls have been working especially hard to earn points for their Sharon High maroon blazers.

They learn to keep an open mind, to question and to answer, to search and to find. Each year, as they uncover histories and sciences, they add to the strong educational foundation with which Sharon High has provided them.

students to the thrill of sports competition, Sharon High School's interscholastic athletic program serves to increase school spirit, to build character, and to afford students the experience of participation in contests with rival schools. This combination of success both in quest of victory and in service of sportsmanship is a tribute to the coaches and the athletes of our school.

Potent Offense . . . Stingy Defense . . .

In preparing to meet the rigors of a new soccer season, a coach must make sure that his squad posesses a strong scoring punch, a stout defense, and a dauntless spirit. First-year coach Rebello found his team meeting all these requirements. Not only did the fighting Rebels combine a potent offensive threat with stingy defense, but they also displayed an undying will-to-win which exceeded that of any previous Sharon High Soccer team. Largely responsible for the high team morale were the co-captains: Jay Chamberlain, Ray Schwarz, and Bob Levenson. A tribute to the ability and determination of the Rebels was that they out-fought Duxbury to capture the South Shore Association championship, and that they progressed gallantly to the Eastern Mass. Finals.

FIELD HOCKEY

Although it's true that "you can't win 'em all," Sharon High's 1966 field hockey team, under the guidance of Miss Makla, their new coach, certainly put up a good fight. The girls struggled through the season, but their hope was never dispelled, and their spirit never failed. Although this was not a year of success as far as the scores were concerned, it provided a strong foundation for next year's team by teaching the girls the merits of cooperation and good sportsmanship.

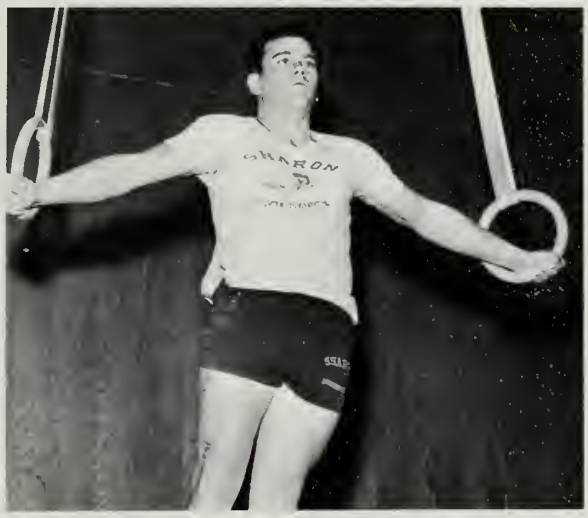
GYMNASTICS

On almost any day during period 7 or after school, the gymnastic apparatus is taken out. Strength, co-ordination, and precision are developed through long hours of practice on the parallel bars, horse, rings, ropes, and high bar. Continuous work-outs reinforce basic skills while the more ambitious members devise new routines.



Steve excels on the rings.

Co-Captains Pat Smith and Cathy Gelpke

Here at Sharon High, with the success of our basketball team, the spectators need little encouraging of spirit; but when the shouts diminish, the cheerleaders are always there to carry and intensify the momentum. These girls have worked hard practicing and innovating new routines to cheer "our boys" on to victory. Their ready smile and bounding enthusiasm provide the spark for the lively, cheering crowd.

The 1966-1967 edition of the Sharon High basketball team surpassed all others in spirit and dedication. Led by their outstanding co-captains, Ray Schwarz and Jay Chamberlain, they achieved a fine record of 16-4. Having tied for the regular season Hockamock League Championship with Oliver Ames, the fighting Eagles dropped their play-off encounter. However, Coach Davenport's boys played with great determination throughout the entire season and qualified for the Tech Tourney. With their excellent performance and with the selection of the co-captains on the Hockamock League All Star Team, the team once again gave Sharon High proud recognition.

With great enthusiasm and team work unmatched by that of the Boston Celtics, the Girls' Varsity Basketball team experienced a victorious season. Anticipating stern competition, Sharon sparked with the outstanding abilities of sophmore Carol Lamb and highscorer Nancy Lindberg. Nancy, who wore the same number, 24, as the Celtics' star, Sam Jones, is as well-known in Sharon as Jones is throughout the country. Using this as incentive, our team, strengthened by long hours of practice and constant coaching by Miss Decas added to the sports achievements of Sharon High by going on to participate in the Invitational Tournament.

Keep your eye on the ball!

On the golf green, Sharon High has once again emerged victorious, displaying a record of six wins against two losses. The success of the season was due to the skill of the dozen members who put in many long hours of practice at the Sharon Country Club under the competent guidance of Coach Grew. With abilities such as those of Steve Kirouac and Chris Staff, the Sharon High Golf Team is sure to come out on top again this Spring.

For these outstanding achievements, Coach Cronin is extremely proud of "our boys."

in Hockomock League Competition

That's the way, Kathy.

To serve a really good tennis game one needs, in addition to the basic ingredients of coordination, cooperative teamwork, and speed, the following essentials:

the guidance of coach Cronin
the skill and speed of Joanne and Joyce Corey
the service of team manager Sheryl Cooper
the enthusiasm of the members of the team

Combine all of these into daily practices held after school in about 30° weather, and the results are good enough to please the most discriminating connoisseur. Furthermore, the recipe rarely fails, for in four years, the girls have only been defeated once in the Hockomock League.

High Spirits, Bad Breaks . . .

Coach Peckham and his team of thirteen returning lettermen were out to win it all this year. However, due to some costly fielding errors, some weak hitting, and a few bad breaks, the Eagles lost their first five games. Still, with spirits high, they came back to win three tough games. Bad luck struck again and the Eagles lost their next three games. Coach Peckham and his team never gave up; and, backed by strong pitching and some timely hits, they won the rest of their games to boast a .500 percentage for the year.

SPRING TRACK

Highlighted by a thrilling 66-65 "come-from-behind" victory over arch rival Foxboro, the Sharon Track Team concluded what may be called a successful season. Flanked mainly by sophomores and juniors, the Sharon men compiled a respectable 4-4 record as opposed to 2-6 the preceding year. This year in track also saw two individual school records shattered — the 880 by David Valavanis and the two mile by Brad Powell. Although some weaknesses in sprinting and field events were evident Coach Coviello pointed to the fact that the overall performance and spirit of the team was vastly improved. With the return of most of his lettermen, the Coach was optimistic about the team's future.

Okay, next time. . .

Now what do I do?

Speed, Stamina, Perseverance . . .

As Coach Coviello looks back upon the fourth season of his cross country team, he sees the things which made it NUMBER ONE. He sees the Varsity Team as champs of the Hockamock League, the South Shore League and the Hockamock League Dual Meets, and the Junior Varsity as champs of the Catholic Memorial Invitational Meet. He sees Brad Powell breaking the Sharon High record, placing fourth in class C of the New England State Meet, and eighth in all Massachusetts. He sees the hard work of the co-captains, Bob Dacey and Dick Grahn, and of all the rest of the team. He sees the speed, stamina, and perseverance which made the Sharon High cross Country Team NUMBER ONE.

Enthusiasm Sparks Spirited Team

If the success of any sports team can be judged by the enthusiasm of its coach, the 1966 Sharon Girls' Softball Team was one of the greatest! Miss Decas, along with her three managers, instructed a group of energetic girls in the skills and techniques of softball. A majority of the team was taken from the Freshman class. Words such as "enthusiastic," "great," and "hardworking" can be used to describe them. The girls were chosen during the first few weeks in April, and, as the first practice sessions got underway, all signs pointed to a tremendous season.

There is no doubt that as long as the Sharon girls continue to display such an avid interest in sports, our girls' softball team cannot help but win!
